FOUNDATIONS

Establishing and strengthening vision, calling, mission, philosophy, values, styles, models, strategies and plans, etc. This 11-session, 3.5 day track is highly recommended to anyone in need of revitalizing their church plant (or church) by revisiting all the Foundations and "required" training for those who have not yet gone to the field. One outcome of this training is the development (or revision of) of a Church Planting Plan including a detailed "Action Plan" for the next 12 months.

ESSENTIALS

Developing & growing ministries of prayer, worship, preaching, discipleship, groups, outreach, mercy, leadership and more. This 11-session, 3.5 day training equips the church planter to grow and strengthen the church from its embryonic or infancy stage to a mature, multiplying stage.

WOMEN

This unique 5-session forum is scheduled so that church planter wives can attend all the early sessions of Foundations or Essentials courses with their husbands, and also benefit from training and sharing that is addressed to the unique calling and challenges of being the "pastor's wife".
